

Introduction

This e-bulletin is the digital newsletter for all members of the Maryburgh Amenities Company Ltd. and is designed to keep all its members informed and updated. The last month has been very quiet with no board meeting in October. There has been some work done on the interior decoration of the hall, but most of this could be done with very little expense apart from the volunteer's time. To make a major difference to the Community Centre money needs to be raised over the coming months.

AGM

ANNUAL GENERAL MEETING

The AGM will be taking place at the end of January, although the actual date has still to be confirmed at this month's board meeting. Once the board of directors have decided on the date for the AGM everyone in the village will be notified.

The future of the Community Centre and activities such as the annual Gala week depend on the active involvement of volunteers. If you are

free at the end of January, please make every effort to attend the AGM. It is important that as many local people as possible have a say in the community activities and both the Maryburgh Amenities Company and Maryburgh Community Council that represent them.

Director Nominations

Do you know someone who would like to become a director? Would you like to be a director?

Why not ask them now, and be prepared for the next AGM? A candidate needs at least 2 ordinary members to nominate them, in writing, to the registered office at least 7 days before the AGM.

If you'd like to know more about what's involved, or wish to discuss the nomination process please feel free to speak to an existing board member.

Building Repairs

Last month's e-Bulletin raised issues regarding the ongoing maintenance of the Community Centre and the need for funding in order that the building can continue to function.

One item discussed by the board members in September was the temporarily closure of the centre for the winter. Since the e-Bulletin was sent out several individuals and organisations have raised concerns about this being done. While nobody wants to close the building, unless we can find money to cover the running costs we may have no other option.

On a more positive note some volunteers led by Jamie Dunsmore did carry out work on the entrance hall, including replacing ceiling tiles and the floor tiles. I hope people have noticed the small improvements.
